## SKILL

- HTML5
- CSS
- JS
- DSA+JAVA
- PYTHON
- C++

## EDUCATION

- Silver oak university | BCA | 2024 | CGPA:8.55
- Shree sahjanand high school | 2023 | 74.21%

## CERTIFICATION

- certified java + dsa by Apna collage
- Full Stack Web Development Certification Apna College (Ongoing)

## PROJECTS

- mini project html and css

->This project showcases how you can combine HTML (for structure) and CSS (for styling) to create a clean, modern webpage with a sidebar menu and a background image. It's a great starting point for anyone learning web development because it teaches how to design a practical and visually appealing layout.

- Fashion store project

->This page serves as the home page or promotional page for a fashion store, focusing on: Displaying product categories. Highlighting upcoming sales and offers. Engaging users with an attractive visual layout.

- To-do App

->"Organize your life with ease! Manage tasks, set priorities, and stay productive with our simple To-Do app.

- spotify clone

->This is a Spotify-inspired web app created using only HTML and CSS. It features a modern and responsive design with sections like navigation, recently played, playlists, and trending music. The project showcases a clean layout and precise styling to replicate the Spotify web player interface.

- Simon game

->The Simon Game is a classic memory game where players must repeat a sequence of colors (and/or sounds) generated by the game. The sequence gets progressively longer as the player successfully repeats it, challenging their memory and focus.

->Heres an example of a caption for the Simon game:

->"Test your memory with the Simon Game! Follow the sequence of colors and sounds as it gets longer with each round. How far can you go? #MemoryChallenge #SimonGame"

## HOBBIES

- cricket
- football
- hockey
